

FACULTY POSITIONS IN INTERNET OF THINGS & 5G

The Faculty of Engineering and Sciences of Universidad Adolfo Ibáñez has great pleasure in inviting applicants for up to two open rank faculty position in Internet of Things (IoT or Industrial IoT) or Wireless Communication technologies, due to start as early as March 1st 2021.

The Faculty of Engineering and Sciences (FES) of Universidad Adolfo Ibáñez (UAI)

UAI is a prestigious private university in Chile. Founded as a business school in 1953, in 1988, it started operating as a university. At present, it has 12,400 students in 8 different schools located on two campuses: one in Santiago, the capital city of Chile, and the other in the coastal city of Viña del Mar.

The FES is one of the leading schools of engineering in Chile, which has experienced rapid growth over the last ten years. It has about 4,000 students and more than 100 full-time professors. The FES offers 7 undergraduate engineering degrees, in addition to its M.Sc. and Ph.D. programs. The FES brings together an open-minded community of scholars who combine fundamental and applied research meant to develop creative and innovative projects. These projects are expected not only to advance the frontier knowledge but also to contribute toward developing solutions that can help to reach our sustainable development goals as portrayed by strategic plan (available at <https://ingenieria.uai.cl/plan-fic/>).

Job description

The FES seeks candidates with demonstrated excellence in research, teaching and service and with expertise in both theory and applications of Internet of Things (IoT or Industrial IoT) or Wireless Communication technologies (5G), or related fields.

We are looking for candidates with strong experience and background in IoT products, protocols or connected platforms, connectivity technologies, security and data privacy, and IoT future-proofing, with high potential to advance the interdisciplinary research with other domains and areas of development at FES. Particular attention will be given to applications that show a strong synergy between Industrial IoT, especially in connection with Wireless Communication technologies across many industries.

Faculty members at FES are expected to teach, in Spanish and/or English, undergraduate and graduate courses related to electronics and related fields, supervise theses, conduct high quality research, publish in top international journals, submit research proposals to national, international and multinational funding organizations, and participate in outreach activities. FES also encourages and welcomes technological transfer and research in collaboration with the industry and the government. The salary depends on the qualifications of the chosen

candidate. As a reference, a starting Assistant Professor should expect a monthly remuneration ranging between \$3.000.000 to \$4.000.000 CLP before taxes (US\$ 45.000 - US\$ 60.000 annual salary approximately). This salary does not include potential stipends from grants or research contracts.

Candidates need not be fluent in Spanish at the moment of applying. They must have excellent oral and written communication skills, a great aptitude for teamwork, and a strong commitment to high quality education and research. Applicants must have earned a PhD degree in Computer Science, Information Technology, Electrical and/or Electronic Engineering, Mechanical Engineering, Communications Engineering, or a related discipline at the time of hiring. Applicants in late stage of doctoral studies are also welcome. Relevant industry experience and indexed publications are a plus.

At FES we believe that diversity broadens our research scope and enhances the quality of our education, so we highly encourage women, international scholars, and minorities to apply for this position.

Application instructions

Applications should be turned in by **November 30th, 2020** to ensure full consideration, but the search will continue until the positions have been filled. Candidates should submit the following information via email to FacultyPositions.FIC@uai.cl (e-mail subject: Faculty Position in IoT-5G), including at least:

1. Statement of purpose (in English) indicating your merits for the position, and your plans in the areas of research and teaching in which you are interested.
2. Curriculum vitae, which must at least include: contact information, educational background, educational and/or professional experience, and a list of publications in scientific journals.
3. Name, position and contact information of at least three people who can submit a recommendation letter in case you are shortlisted.
4. Availability to work in the campus of Santiago, Viña del Mar or both.

The candidate may also be asked to give a lecture about his/her current research topics and/or to hold interviews with the Dean and members of the Faculty of Engineering and Sciences. Interviews may be done by videoconference, if necessary.
