

## FACULTY POSITIONS IN DIGITAL TRANSFORMATION

The Faculty of Engineering and Sciences of Universidad Adolfo Ibáñez has great pleasure in inviting applicants for up to three open rank faculty position in Digital Transformation due to start as early as March 1<sup>st</sup> 2021.

### **The Faculty of Engineering and Sciences (FES) of Universidad Adolfo Ibáñez (UAI)**

UAI is a prestigious private university in Chile. Founded as a business school in 1953, in 1988, it started operating as a university. At present, it has 12,400 students in 8 different schools located on two campuses: one in Santiago, the capital city of Chile, and the other in the coastal city of Viña del Mar.

The FES is one of the leading schools of engineering in Chile, which has experienced rapid growth over the last ten years. It has about 4,000 students and more than 100 full-time professors. The FES offers 7 undergraduate engineering degrees, in addition to its M.Sc. and Ph.D. programs. The FES brings together an open-minded community of scholars who combine fundamental and applied research meant to develop creative and innovative projects. These projects are expected not only to advance the frontier knowledge but also to contribute toward developing solutions that can help to reach our sustainable development goals as portrayed by strategic plan (available at <https://ingenieria.uai.cl/plan-fic/>).

### **Job description**

The hiring committee especially encourages applications from scholars with work related to at least one of the following fields: Internet of things, Cloud Computing, Cybersecurity / Computer security, Software development, Blockchain (DeFi). It will be considered as a plus professional certifications from companies, such as: ISC2, PMI, AWS, Microsoft, Oracle, Google, etc.

We seek for two different type of academic profiles:

- Research-focused position: With special emphasis in teaching and research. Applicants must have earned a PhD degree in Computer Engineering, Computer Science, or a related discipline at the time of hiring. Applicants in late stage of doctoral studies are also welcome.
- Technology Transfer position: With special emphasis in teaching and technological transfer in collaboration with the industry and the government. Applicants must have earned a master's degree in Computer Engineering, Computer Science, or a related discipline at the time of hiring, and a demonstrated excellence in applications of digital transformation.

Faculty members at FES are expected to teach, in Spanish and/or English, undergraduate and graduate courses related to Computer Engineering and related fields, supervise theses, conduct high quality research, publish in top international journals, submit research proposals to national, international and multinational funding organizations, and participate in outreach activities. FES also encourages and welcomes technological transfer and research in collaboration with the industry and the government. The salary depends on the qualifications of the chosen candidate. As a reference, a starting research-focused Assistant Professor should expect a monthly remuneration ranging between \$3.000.000 to \$4.000.000 CLP before taxes (US\$ 45.000 - US\$ 60.000 annual salary approximately). This salary does not include potential stipends from grants or research contracts.

Candidates need not be fluent in Spanish at the moment of applying. They must have excellent oral and written communication skills, a great aptitude for teamwork, and a strong commitment to high quality education and research. Applicants must have earned a Master's or PhD degree in Computer Engineering, Computer Science, or a related discipline at the time of hiring, depending of the profile of the position. Applicants in late stage of doctoral studies are also welcome. Relevant industry experience and indexed publications are a plus.

At FES we believe that diversity broadens our research scope and enhances the quality of our education, so we highly encourage women, international scholars, and minorities to apply for this position.

### **Application instructions**

Applications should be turned in by **November 30<sup>th</sup>, 2020** to ensure full consideration, but the search will continue until the positions have been filled. Candidates should submit the following information via email to [FacultyPositions.FIC@uai.cl](mailto:FacultyPositions.FIC@uai.cl) (e-mail subject: Faculty Position in Digital Transformation), including at least:

1. Statement of purpose (in English) indicating your merits for the position, and your plans in the areas of research and teaching in which you are interested.
2. Curriculum vitae, which must at least include: contact information, educational background, educational and/or professional experience, and a list of publications in scientific journals.
3. Name, position and contact information of at least three people who can submit a recommendation letter in case you are shortlisted.
4. Availability to work in the campus of Santiago, Viña del Mar or both.

The candidate may also be asked to give a lecture about his/her current research topics and/or to hold interviews with the Dean and members of the Faculty of Engineering and Sciences. Interviews may be done by videoconference, if necessary.
